Who we are...

Inquire Incorporated specializes exclusively in the areas of Enterprise Search & Knowledge Management. We possess over 20 years of experience managing search and KM initiatives, designing tools, and developing content strategies for companies in every major vertical market. At Inquire we provide the deep expertise that maximizes the value of our clients intellectual assets.

What we do...

The principals at Inquire understand that a successful implementation depends on client interaction. We engage client resources at every level to demystify KM and develop a culture where knowledge management practices can thrive, regardless of the technology. Additionally we work to create sustainable programs that take into account the unique characteristics of our client organizations.

Our services...

- KM Product/Vendor Selection
- Implementation Design
- Knowledge Auditing
- Process Evaluation & Development
- KM Training
- Metrics & Reporting

Don't wait...

Are you considering the purchase of a KM platform? We can help define the selection criteria and perform readiness assessments to ensure optimal organizational fit. **Is your existing KM platform underutilized?** We have specific strategies for improving adoption. **Do you want to expand the use of KM within the enterprise?** We bring a methodological approach that minimizes risk and integrates KM best-practices at the project level.
